# Geophysical research letters template

Geophysical research letters template word. Geophysical research letters latex template.

AGU can work with other journals to coordinate publication. (2016, June 29). New York, NY: Springer.Web sitesSometimes references to web sites should appear directly in the text rather than in the bibliography. (2009) Detailed citation style can be found in AGU's Style Guide. 47-68). Science (New York, N.Y.). 346(6216). 1454-1455.A journal article with 3 authorsEvaristo, J., Jasechko, S., & McDonnell, J. Scientific Reports, 3, 2121.Books and book chaptersHere are examples of references for authored and edited books as well as book chapters.Fuller, S. We strongly encourage all authors and reviewers to register for an ORCID. If the data or software is described in a separate data or software paper, please include both that paper and the deposited data or software as separate citations. We use this information to make your paper available to your funders through CHORUS. Research Letters for Geophysical Research Letters have a maximum length of 12 publication units. Mathematics. Instead, the full date and page number is required for a correct reference.Wallace, N. Key points Key Points convey the main points and conclusions of the article. Additionally, please cite data and software created by others used in your research to ensure proper credit for that work. Retrieved October 30, 2018, from example shows the general structure used for government reports, technical reports, and scientific reports. Food and Drug Administration" or "National Cancer Institute".Government Accountability Office. Sample identification AGU recommends use of International Geo Sample Numbers (IGSNs) for all samples reported in AGU Journals. A maximum of four levels of heads may be used, with subsections numbered 1.1., 1.2.; 1.1.1., 1.2.1; 1.1.1.1., and so on. Boston, MA: Springer US.A chapter in an edited bookFox, J. In text citations are included in the word count. Reference citations. Use abbreviations only if they are defined in the abstract. AGU Journals allow authors to indicate their respective contributions using the CRediT taxonomy. Immunology. AGU will not publish manuscripts with any references that are not yet published. Please DO NOT introduce any extraneous formatting, new commands, macros, or shortcuts, as they are not compatible with our publishing process. Chichester, UK: John Wiley & Sons, Ltd.Ingene, C. AGU's Style Guide discusses formatting citations in abstracts. A PLS is required for submissions to AGU Advances, G-Cubed, GeoHealth, GRL, JAMES, JGR: Biogeosciences, JGR: Oceans, JGR: Planets, JGR: Solid Earth, Space Weather, and Reviews of Geophysics, but optional for other journals. A PLS should be no longer than 200 words and should be free of jargon, acronyms, equations, and any technical information that would be unknown to people from outside your scientific discipline. J., & Bartholomae, S. All author affiliations related to the work are indicated. For a complete guide how to prepare your manuscript refer to the journal's instructions to authors.Using reference management softwareTypically you don't format your citations and bibliography by hand. References All sources cited in text, tables, figures, and supporting information must appear in the reference list. Global separation of plant transpiration from groundwater and streamflow. Guides Resources Citation stylesThis is a short guide how to format citations and the bibliography in a manuscript for Geophysical Research Letters. Papers with extensive extraneous formatting, macros, or shortcuts (including \def,ewcommands, \renewcommands, and especially those commands with #) will be returned for correction. Do not use graphics for equations. All papers are checked for plagiarism. Your abstract should: Be set as a single paragraph. Key Points are not included in the word count. Please look for an email message from ORCID and CrossRef to grant permission for this update process. General guidelines Please prepare your manuscript following our checklists and templates listed under our How to Submit resources. Equations are counted as one word in the word count. RapidIO®: The Embedded System Interconnect. If you can't locate the report number then it might be better to cite the report as a book. Plain language summary A Plain Language Summary (PLS) can be an incredibly effective science communication tool. (M. In submitting, the corresponding author affirms that: All authors have read and approved the paper and will be informed about all reviews and revisions. List all funding sources including persistent identifiers (e.g. Grant ID, Funder ID) in the GEMS submission form. An optional separate paragraph indicating author contributions beyond that identified in the CRediT taxonomy. Use the AGU Index Set. (2014). A27.In-text citationsReferences should be cited in the text by name and year in parentheses.This sentence cites one reference (Burtis, 2002).This sentence cites two references (Burtis, 2002; Grasset & Cerutti, 2014).Here are examples of in-text citations with multiple authors:Two authors: (Grasset & Cerutti, 2014)Three or more authors: (Jimenez-Useche et al., 2013)Full journal titleGeophysical Research LettersAbbreviationGeophys. Data and software AGU requires that all data needed to understand, evaluate, and build upon the reported research must be available at the time of peer review and publication. E. (2002). S. Lett.ISSN (print)0094-8276ISSN (online)1944-8007ScopeGeneral Earth and Planetary SciencesGeophysicsOther styles Preparing your paper as outlined below will help expedite consideration. Acknowledgments The acknowledgments must list: All funding sources related to this work from all authors including any source of direct or in-kind support. It is expected that authors will have: (1) made substantial contributions to the conception or design of the work; or the acquisition, analysis, or interpretation of data, or creation of new software used in the work; or have drafted the work or substantively revised it; (2) approved the submitted version (and any substantially modified version that involves the author's contribution to the study); and (3) agreed to be personally accountable for their own contributions and for ensuring that questions related to the accuracy or integrity of any part of the work, even ones in which the author was not personally involved, are appropriately investigated, resolved, and documented in the literature. Your manuscript should be arranged in the following order: Title page A title should be specific, informative, and brief. LaTeX For LaTeX, use the AGU template. J. (2005). The title, authors, affiliations, key points, keywords, text in tables (but not captions) and references are excluded from word counts. Length For most journals, Research Articles are allowed to be up to 25 publication units (PU), where 1 PU is 500 words or 1 display element (figure or table). Other contributors who do not meet the authorship criteria should be acknowledged. Additional information can be found in the AGU Data & Software for Authors guidance. If a more specific contribution statement is needed, please add a paragraph as part of the acknowledgements. Avoid reference citations unless dependent on or directly related to another paper (e.g., companion, comment, reply, or commentary on another paper(s)). (2008). AGU does not normally allow dedications. Group authors are allowed, if each author in the group is separately identified in an appendix or supplement. (2017). C., Qiu, X., & Yuan, C. Every reference must be available publicly online or in print before a paper can be accepted. Footnotes. "Unpublished" or "in press" references are not allowed. DNA methylation regulated nucleosome dynamics. Complete information about Publication Fees and length is here. Text Headings. The acknowledgments are also the appropriate place to thank colleagues and other contributors. Abstract The abstract (1) states the nature of the investigation and (2) summarizes the important conclusions. The abstract should be suitable for indexing. K., & Cerutti, A. Read our tips for creating an effective PLS. Electronic Government: Potential Exists for Enhancing Collaboration on Four Initiatives (No. GAO-04-6). Olfaction and Exhibition: Assessing the Impact of Scent in Museums on Exhibit Engagement, Learning and Empathy (Doctoral dissertation). Crow Brains Reveal Secrets of Their Intelligence. References in supporting information must also be cited in the main text and included in the reference list of the main paper so that they will be discovered, linked, and indexed. Authors are expected to indicate in the acknowledgements and cover letter any additional affiliations or employment that might be perceived as a conflict of interest related to the paper. Nature. 525(7567). 91-94.A journal article with 8 or more authorsJimenez-Useche, I., Ke, J., Tian, Y., Shim, D., Howell, S. Some electronic journals do not provide a page range, but instead list an article identifier. Do not use terms ending in "00." Authors may also provide up to six keywords which are not included in the word count. Build equations with Mathtype or the Word Equation Editor (if using Word), or in Latex. Mathematical Models of Distribution Channels. Author affiliations should indicate to the reader where the author was employed or affiliated with at the time of the work. Preparing your manuscript For submission, we prefer to receive a single file containing your manuscript, figures, and tables; you can use our checklists and templates in Word and LaTeX. Further explanations for the editors of conflicts of interests or funding information should be included in the cover letter. Be less than 250 words for all journals except GRL for which the limit is 150 words. The G.O.P. Wants for Trump to Grow Up. New York Times, p. Index terms and keywords Index terms are important for discovery and linking your article. We strongly encourage authors to register samples and obtain IGSNs and use them throughout their manuscript and tables. Development. These are free-form terms that can be used to facilitate online searches. If you are submitting companion papers, please indicate this and any information regarding coordination in your cover letter and provide clearly labeled copies of all papers as part of your submission. Define all abbreviations. This information will be published with your paper starting in 2018. Other affiliations for any author that may be perceived as creating a conflict of interest with respect to the results of the paper. Papers with significant overlap will be rejected or returned for correction. C. They should not include parenthetical reference citations or table and figure callouts. Up to three key point statements are allowed, and each is limited to at most 140 characters with no abbreviations. The easiest way is to use a reference manager:PaperpileThe citation style is built in and you can choose it in Settings > Citation Style or Paperpile > Citation Style in Google Docs.EndNoteDownload the output style fileMendeley, Zotero, Papers, and othersThe style is either built in or you can download a CSL file that is supported by most references management programs.BibTeXBibTeX styles are usually part of a LaTeX template. Footnotes are used only for author affiliations and tables. AGU now requires all corresponding authors to register for an ORCID identifier and connect it to your account in our editorial system. Please provide regular updates to the editors on the progress of related papers, especially at revision. AGU will notify each co-author about a submission and all revisions. Reference text is not included in excess length calculations. Authors are individuals who have significantly contributed to the research and preparation of the article (see specific guidelines above). We recognize IGSNs during our production process and will provide links in manuscript tables to the registered sample descriptions. Do not include honorifics such as Dr etc.; include first name or initial and last name. Your ORCID identifier will be included in your published manuscript, and we will in turn update your publication list in your ORCID record. Companion manuscripts AGU will consider papers that are companions or so related that publication and citation should be coordinated. AGU's Publications Style Guide offers examples and style information. Incorporate all other footnoted information into text. IGSNs provide a unique identifier allowing samples to be linked across publications and searched through a central repository. Florida Atlantic University, Boca Raton, FL.News paper articlesUnlike scholarly journals, news papers do not usually have a volume and issue number. Science (New York, N.Y.), 297(5584), 1135-1136.A journal article with 2 authorsGrasset, E. Financial Education and Program Evaluation. Parry, Ed.) (Vol. Additionally, authors should make available software that has a significant impact on the research. (2013). For most journals, Commentaries are limited to 6 publication units (recommended length is about 2000 words and 1-2 figures). In J. Any real or perceived conflicts of interest related to this work are declared to the editors in the cover letter Data needed to understand, evaluate, and build upon the reported research must be available at the time of peer review and publication. Each of these has different length limits or guidelines. Including your ORCID identifier helps ensure you get credit for your work, improves integrity in publishing, and enables discovery and linking of your publications, datasets, and more. (2013, December 4). The paper is an original submission and not under active consideration elsewhere. Any real or perceived financial conflicts of interests for any author. Not include table or figure mentions. In a case like this it's safe to use the article identifier instead of the page range.A journal article with 1 authorBurtis, K. Xiao (Ed.), Handbook of Consumer Finance Research (pp. Details on what the Statement should include along with templates can be found at Data and Software for Authors. Up to five index terms are allowed and are provided at the time of submission. For reports it is usually not individual people that are credited as authors, but a governmental department or agency like "U. AGU LaTeX templates are also on Overleaf or Curvenote, cloud-based LaTeX authoring systems that allow direct submission to AGU journals. Funding information must include the funding body and contribution number. If the citation of such manuscripts is approved by the editor, AGU will hold final publication until the cited literature is accepted and publicly available. Headings should be sentence fragments and do not begin with a lowercase letter or number. Longer papers are assessed an excess length fee. Retroviral help for B cells. Longer papers are not considered in GRL and will be returned for shortening. A. For further details, see the Data & Software for Authors guidance. Authors must include formal citations to the data/software described in the Availability Statement. Do not include a separate reference list in the supporting information. Doublesex in the middle. Check the instructions to authors if the publisher offers a LaTeX template for this journal.Journal articlesThose examples are references to articles in scholarly journals and how they are supposed to appear in your bibliography.Not all journals organize their published articles in volumes and issues, so these fields are optional. Other papers under consideration elsewhere and related to your AGU submission should also be included for the editors and the relation explained in the cover letter. Sections are numbered with Arabic numerals (1, 2, 3, etc.). Except for short manuscripts (such as comments and replies), the text should be divided into sections, each with its own heading. Open research (availability statement) An Availability Statement, located in the Open Research section of the paper, contains information about your data, software, and other research objects (e.g. notebook) and how readers can access these. (2015). (Zhu et al., 2016) or Zhu et al. If there are multiple companions, we strongly recommend that you contact our staff and the journal editors in advance. Current addresses or affiliations should be indicated with a footnote. Refer to the Instructions to authors for Geophysical Research Letters.Andrew, E. Res. AGU journals consider a number of different paper types. By summarizing your paper in non-technical terms, you can explain your research and its relevance to a much broader audience. (2003). 17). Use name-date format, not numbered references, and enclose citations in parentheses. Washington, DC: U.S. Government Printing Office.Theses and dissertationsTheses including Ph.D. dissertations, Master's theses or Bachelor theses follow the basic format outlined below.Mills, C. Supporting information and large tables should be uploaded separately.
